

Intro

Welcome to the list, a reflection of my drinking journey through the realms of wine, beer, and cocktails. The list is not only a compilation of labels but each bottle tells a story, echoes moments of laughter, and reminds me of people I enjoy with. You will find a range of selections that welcome both new and high-flying hour drinkers. I believe that there is always one bottle that stands out and makes it easy for you to choose depending on the occasion. From the rolling vineyard of Bordeaux to the traditional breweries of Belgium, and the vibrant mixology of Thai spirits. My selection reflects not only my personal taste but also the collective spirit and enjoyment that transcends boundaries and brings people together. Each drink has been carefully chosen not only for its flavor profile but also for its ability to elevate your drinking experience.

So, embark on this journey and let each glass be a toast to experience, memory and forever friendship.

Ps. Use these indicators to guide you to the philosophy of each producers.

🍷 Low Intervention 🍇

Refers to wines made with minimal interference in the winemaking process. This approach emphasizes natural fermentation, minimal or no filtration, and little to no additives, resulting in wines that express the true character of the grapes and their terroir.

🌱 Organic 🌿

Made from grapes grown without synthetic pesticides, herbicides, or fertilizers. These wines normally look and taste classic.

🌙 Biodynamic 🌙

Extend beyond organic methods, and aims to find harmony between soil, plant, animals and human. Following a biodynamic calendar, it emphasizes natural yeast and minimal sulfur in winemaking.

🌍 Sustainable 🌍

Focuses on environmental stewardship, social responsibility, and economic viability. As grapes are grown, harvested, and made into wine, a multitude of environmental factors are prioritized.

Cheers 🍷🍺,
Sivakorn
